Ultra Compact and Versatile Filtered Power Entry Module

- Dual stage filter
- Ultra compact design
- Rated currents up to 10 A
- Dual fuse holder
- 2-pole rocker switch
- Good attenuation performance
- Faston or spring cage terminals

Check the video of our IEC Inlet Filters FN 9280 and FN 9290 on Youtube!

### Approvals & Compliances

(CQC, except HI-types; Patent US 20110227692/US 8766761; CN ZL201080069589.0)

Choosing FN 9280/90 product line brings you the rapid availability of a standard filter associated with the necessary safety acceptances and a high attenuation performance. For higher attenuation performance the FN 9290 family with a dual stage filter and identical panel cut-out can be used.

Standard IEC connector filters are a practical solution to pass EMI system approval in a short time. A wide selection of amperage ratings, mounting possibilities and also filters for medical applications are designed to offer you the best solution.

### Features and benefits

- Best conducted attenuation performance, based on chokes with high saturation resistance and excellent thermal behavior
- Deep-drawn iron-sheet housing for best possible shielding against magnetic fields
- Rear/front flange mounting or snap-in versions
- Dual and additional spare fuse holder
- 2-pole rocker switch
- Faston or spring cage terminals for more flexible assembly
- FN 929X B versions comply with the requirements of 1MOP acc. to IEC/EN 60601-1
- All versions according IEC/EN 62368-1

### Typical applications

- Portable electrical and electronic equipment
- Consumer goods
- EDP and office equipment
- Single-phase and switch-mode power supplies
- Test and measurement equipment
- Medical electrical devices (MD) and In-Vitro-Diagnostics (IVD) equipment
- Audio/Video, information and communication technologies

### Typical electrical schematic

FN 9290 Standard types (8 types without Cy)

* To compile a complete part number, please replace the -.. with the required output connection style (e.g. FN 9289-1-06, FN 9282-4-100)
** Maximum leakage current under normal conditions (according to IEC60939-3)

### Product selector

- **Blank:** Snap in range 1.0 to 2.5 mm
- **Optional:** Snap in range >2.5 to 3.5 mm
- **06:** Fast-on 6.3 x 0.8 mm (spade/soldering)
- **100:** Spring cage
- **1 to 10:** Rated current [A]
- **Blank:** Standard version
- **Optional:** Medical version (without Y2-capacitor)
- **B:** Medical version (without Y2-capacitor)
- **0:** Snap-in version, snapper on horizontal side (top / bottom)
- **Optional:** Snap-in version, snapper on horizontal side (top / bottom)
- **1:** Rear Flange mounting (top / bottom)
- **2:** Front Flange mounting (top / bottom)
- **3:** Rear Flange mounting (left / right)
- **4:** Front Flange mounting (left / right)
- **8:** Snap-in version, snapper on vertical side (left / right)
- **9:** Dual stage filter
All FN 9280/FN 9290 are equipped with a dual fuse holder with a spare fuse holder.

**Note:** All FN 9280/FN 9280 B/FN 9289/FN 9290 B/FN 9299/FN 9299 B are stock types from our distribution partners.

Order Examples:

FN 9280 B-6-100: Medical version of single stage, dual fuse EMC/EMI filter, flange set for vertical/horizontal/front/rear mounting, 6 A, spring cage terminals, from stock available.

FN 9298-6-06-30: Dual stage, dual fuse EMC/EMI filter, snap-in version, snappers for snap-in panel thickness range >2.5 to 3.5 mm, snapper on vertical side, 6 A, fast-on terminals, non-stock order type

Accessories: The 4D flanges can be ordered separately. The order number is 427532. Please note that the minimum order quantity is one box of 50 pieces. One item includes both type of flanges (vertical and horizontal).

- 0.2 - 1.5mm² / 24 - 16 AWG (UL)
Assembly Instructions

Terminal -100
- Clamping range, solid wire / flex wire: 0.20 mm² – 1.5 mm², AWG24 – AWG16
- Operating force of slider: max. 40 N
- Recommended stripped length: 8 mm

REAR MOUNTING
- Vertical: 78 mm
- Horizontal: 56 mm
- Max. R2: 42
- Max. R2: 28.9
- Ø 6.2 mm

Assembly:
- Torque: 0.4 Nm
- Panhead tapping screw: d x l 3.9 x 9.5 mm

FRONT MOUNTING
- Vertical: 76 mm
- Horizontal: 56 mm
- Max. R2: 42
- Max. R2: 28.9
- Ø 3.5 or M3

Assembly:
- Recommended screw: Countersunk screw M3x14 DIN 963A
- Countersink screw and pressed in nut M3: torque: 0.5 Nm

Push the knob above the terminal to insert the wire.

Removal of the combined switch / fuse holder unit

An additional fuse mark on the switch indicates the fuses holders behind the switch. The red frame shows the outline of the removable unit.

With a simple tool like a Swiss Army knife or a screwdriver No 1 or smaller the unit (1) can be removed from the filter. On the topside (2) behind the switch there are two fuse holders for each live connection. On the bottom side (3) is a clip to carry an additional spare fuse.

Please visit www.schaffner.com to find more details on filter connectors.
## Accessories

### Power Cord with angled Locking System C13

- Locking system for standardized IEC C14 inlet filter
- No accidental disconnection
- Rated current up to 15 A
- Fits any Schaffner IEC C14 inlet filter
- Retrofit for any IEC C14 inlet
- Various power line plugs for international usage

**Datasheet PDF >**

---

### IL 13P IEC C13 Rewireable Angled Connectors with Locking System

- Locking system for standardized IEC C14 inlet filter
- No accidental disconnection
- Rated current up to 15 A
- Fits any Schaffner IEC C14 inlet filter
- Retrofit for any IEC C14 inlet
- Various power line plugs for international usage
- Guards against accidental disconnection
- Requires no other equipment or special inlets to secure it
- Rewireable - offering total flexibility when assembling cables
- Can be retrofitted
- Various power line plugs for international usage
- LSZH - Low smoke zero halogen

**Datasheet PDF >**

---

### IL 13P IEC C13 Rewireable Connectors with Locking System

- Guards against accidental disconnection
- Requires no other equipment or special inlets to secure it
- Rewireable - offering total flexibility when assembling cables
- Fits any Schaffner IEC C14 inlet filter
- Can be retrofitted
- Various power line plugs for international usage
- LSZH - Low smoke zero halogen
